

Annual Index 1998

American Journal of Nursing

The index is arranged in two sections, the Subject Index and the Author Index. Articles are entered under one or more subjects in the Subject section and under the names of authors in the Author section.

News items are indexed in the Subject Index under the names of the organizations or groups mentioned as well as under the subject of the news item.

Note: In addition to subject headings used in **Medical Subject Headings (MeSH)**, published by the National Library of Medicine, pertinent nursing headings in other health disciplines are used to make this index more useful and relevant.
